This book is long and well worth reading in its entirety. If people want to pick and choose the most important parts, we recommend: Chapter 1 Epistemic Crisis ; Chapter 2 The Architecture of our Discontent. Part Two Introduction; Part Three Introduction; Part Four Introduction 2. The reader may then choose particular chapters that address their interests based on the descriptions and information in the introductions.

Discussions with one of the authors, podcast – but it's a long one:
